 - Telecommunication systems
 - Cross-functional collaboration
 - Problem solving
 - **Agile** methodologies
-

🏠 EXPERIENCE

Associate Consultant JL4

Infosys Limited – Hyderabad, India

December 2025 – till Date (6 months+)

Client: Proximus (Belgium)

- **Project Stabilization:** Stepped into a highly critical, unstable project environment plagued by over 500 active defects, collaborating with the team to successfully resolve 450+ issues and personally delivering 25+ critical fixes.
- **Defect Ownership & Quality:** Assumed full ownership of complex defects from analysis to deployment, implementing careful code fixes that protected existing core business logic and achieved a zero-reopen rate.
- **Modern Open UI Development:** Enhanced and maintained a highly customized Siebel 25 application built on modern Open UI architecture, delivering a rich, responsive, and modern user interface using advanced front-end technologies.

Software Developer

Tata Consultancy Services – Hyderabad, India

June 2023 – December 2025 (2 years 6 months)

- Worked with Openreach, which runs the UK's digital network, with over 688 communications providers impacting 70k homes and businesses.
- Developed features in the T2R area of the telecom business model, managing service requests on provisioned services.
- Implemented business logic with workflows and integrated with external systems using Siebel EAI: data maps, integration objects and email communication services.
- Handled complex requirements via scripting logic and business services.

- Highly customised Siebel eSales Application involving logic built into Presentation Model, PR files and jQuery framework.
-

PERSONAL PROJECTS

- **Banking Web App** – Built with PHP, HTML, CSS, and JS
 - Implemented CRUD operations
 - Features: Check balance, money transfer, deposit, login/logout using PIN, user creation
-
